Bio:	<p>After a successful career as a no-nonsense full back with a cultured right-foot at Trostre Sports in the CAFL Premier League, Daz joined Llan in 2008. Bringing with him a wealth of experience and knowledge, the main aim of getting Daz in the club was actually a means of landing the signature of his brother too, but it didn't happen.</p> <p>Despite the setback, Double-D became a key figure for the first team as a commanding presence both in defence or midfield. Injuries inevitably took their toll and his game time became more sparse however he was still playing for the first team until 2017, also turning out for the Reserves while coaching and teaching some young (and not so young) lads how it's done. A knee injury - that now awaits an op - put his playing efforts on hold... for now. Daz played his last few games to date with Swansea Over 40s.</p> <p>His presence around the club is very much valued and he was appointed first team coach by the new Manager Nath Mcauley for the 2018/19 season and continues to fulfil a valuable role for the club.</p>
